# **OUR LOCATIONS**

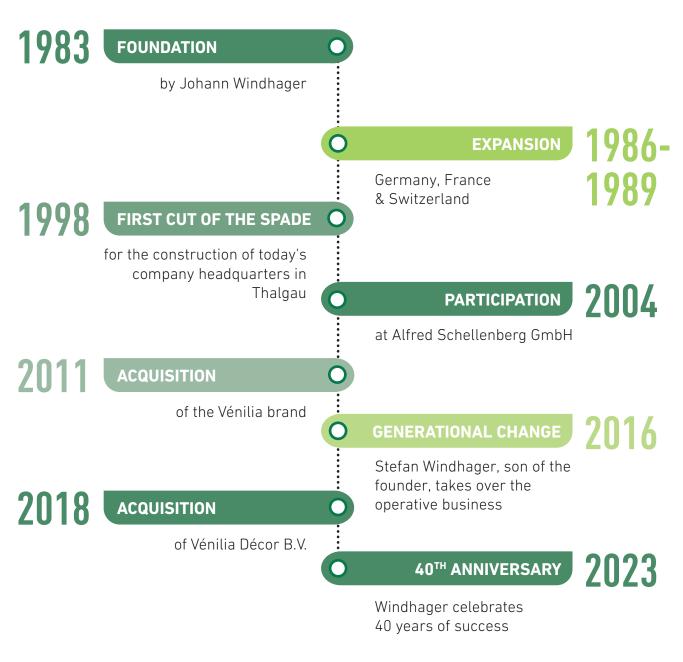

# **OUR HISTORY**

The cornerstone for the success of our family business was laid in Grödig in 1983 by Johann Windhager. We are still firmly rooted in the Salzburg region and proud of our strong growth and continuous expansion.

#### Sustainability of our products

Sustainability has many faces. Many paths. Many possibilities. This makes sustainability complex and exciting, but also challenging.

Windhager has been committed to dealing with the issue of sustainability responsibly for many years. This is not always easy, because the functionality and benefits of the products, including the affordability for the customer, are clearly in the foreground. You can easily recognize our sustainable products by the addition "Greenline" in the title.

#### MINIMAL PACKAGING:

Since 2014, the majority of Windhager films and fleeces have been packaged in cardboard instead of plastic.

Wherever possible, we work with alternatives to plastics or reduce their proportion. Of course, the focus here is still on protecting the product.

#### DURABLE & REUSABLE:

Products that don't end up in the trash after one season are kind to the environment. Windhager relies on this longevity in individual product variants - here it is ultimately up to the customer how long the product remains in use.

#### **REGIONAL:**

Even if not everything can be obtained regionally: Windhager tries to keep the transport routes as short as possible. Products made from sheep's wool, for example, come from Austria, while the propagating trays and pots, as well as the mulch paper and the wood for many of the birdhouses, come from the EU.

#### NATURAL, RENEWABLE MATERIALS:

Products made of sheep's wool or jute, bast and hemp have been in the range for a very long time, and the variety of products is increasing - because they simply fit perfectly into the garden.

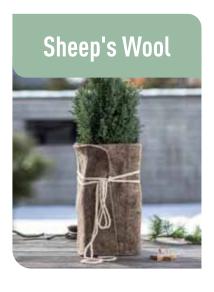

The variety of products for an even greener garden

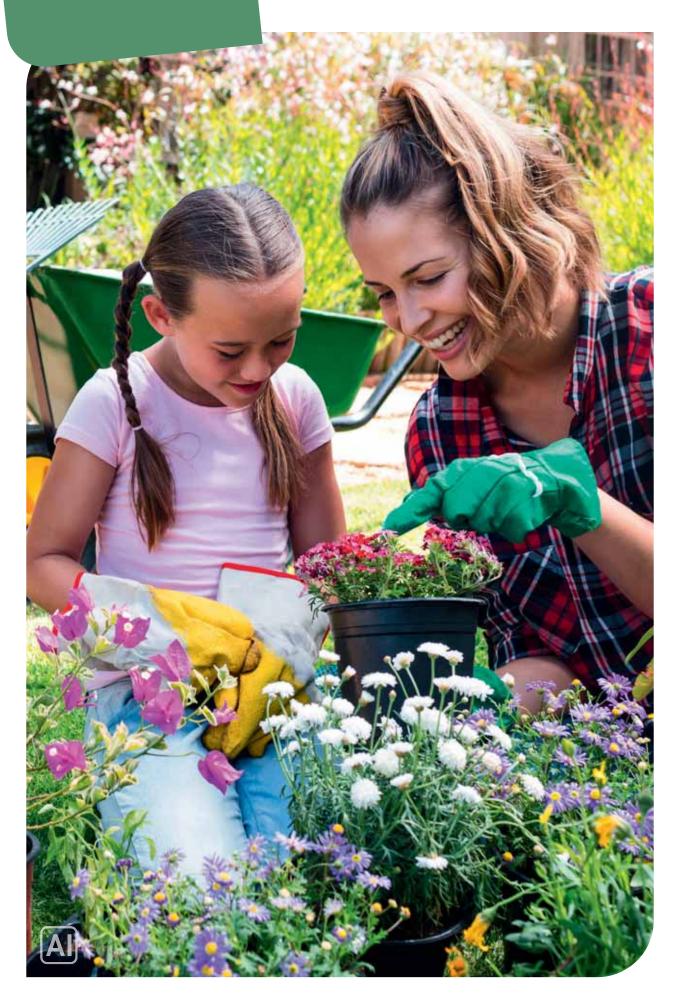

#### Sustainability on location

At the Thalgau location, sustainability is practised, among other things, through the most modern logistics concepts, the regular optimization of energy requirements and the installation of a photovoltaic system with around 380,000 kWh/year. E-vehicles (cars & bicycles) are also available to the Windhager team. In addition, the company provides every employee with the Salzburg climate ticket for one year.

# NOVELTIES 2026

## Raised bed snail protection wall and corners

art. no. 02447 art. no. 02448

#### Protection for raised bed - seamless and effective

The telescopic snail barrier (art. no. 02447) can be easily adjusted and cut to fit the size of your raised bed. It is screwed to the outer wall of the raised bed and prevents snails from reaching the plants. The snails will not be harmed. This snail barrier is weatherproof and can remain attached to the raised bed all year round. With the help of the matching corner connectors (art. no. 02448), the raised bed is reliably protected..

#### Raised bed snail protection - 1/6 free standing DSP (metal)

# Vole and mole repellent MOLE STOP SOLAR PLUS

art. no. 02121

#### Pest control redefined

MOLE STOP SOLAR PLUS represents a new generation of effective protection against voles and moles based on more than 40 years of experience – the smart evolution of our tried-and-tested repellents MOLE STOP 1000 (art. no. 02120) and MOLE STOP SOLAR (art. no. 02125).

It repels voles, moles, snakes and other pests in or on the ground for the long term by transmitting powerful vibrations into the soil, without any poison or chemicals.

The integrated solar panel and USB-C port enable easy, battery-free charging. With a coverage area of up to 1,000  $\text{m}^2$  and long battery life of up to 7 days, MOLE STOP SOLAR PLUS can be used flexibly in any sunny spot in the garden. An LED display shows the selected intensity level.

# ANIMALS IN THE GARDEN

#### Bird bath Badi

art. no. 07739

#### **Decorative water source for birds**

The compact bird bath Badi offers a simple solution for providing water on hot summer days. With the help of the Windhager wooden posts for gazing balls (art. no. 07962, 07963), it can be placed in the meadow, in a garden bed or in a larger plant pot. It can also be placed on a flat surface. A finely crafted bird silhouette gives the bird bath a special touch.

# Jute climbing plant netting XL Greenline

art. no. 07734

#### Sturdy climbing plant netting for flower beds and decorative ideas

The strong climbing netting made from 100% natural jute is particularly tear-resistant and weatherproof. With a mesh size of approx. 15 x 15 cm, climbing plants receive secure support and can grow upwards in a structured way.

# Willow plant stakes Greenline

**art. no. 07740** 6 pcs. 120 cm **art. no. 07741** 5 pcs. 150 cm

#### The natural choice for stable support

The FSC-certified willow plant stake gives climbing plants such as tomatoes, peppers, English ivy and co. the stability they need to grow tall, both indoors and outdoors.

# **GARDENING AIDS**

#### Clever cover for clean rainwater

The fine-meshed water butt cover reliably protects the water in the barrel from leaves and dirt. It prevents insects from laying eggs in the rainwater and keeps small animals such as frogs and mice away. For round and square water butts with a diameter of up to 95 cm.

#### Coconut tree tie Greenline

art. no. 07742

#### Decoratively plaited yarn

This tie is a true all-rounder for the use in the garden and around the home. It can be used to secure trees and plants to wooden stakes or plant supports. The braided cord is made from pure coconut fibre, making it especially durable and tear-resistant.

# **GARDENING AIDS**

# Garden bag with sweeping edge

art. no. 07083

#### The easy way to keep the garden clean

Thanks to its practical sweep edge, this garden bag can be laid flat on the ground, while an integrated metal reinforcement keeps it open.

# **GARDEN DESIGN**

## Hazelnut lattice fence border edging

art. no. 07701 art. no. 07702

#### Natural-style garden bed edging

The rustic lattice fence is made in the EU from high-quality hazelnut. It can be used as a visual highlight as a boundary for flower beds or as a small garden fence. It is also suitable for use on uneven ground, can be attached quickly (e.g. to a post) and can be extended as required. It always remains stable as the individual posts are connected with galvanized wire

# SEED SOWING & PROPAGATION

# pots – pure nature for your garden

Biodegradable seedling

These pots are made from 100% biodegradable, FSC-certified materials – free from chemical additives. This allows them to be planted directly into the soil together with the seedlings. Available in two shapes and various sizes.

INDEX	309	Index

The lettuce and strawberries are planted, the lawn prepared and the pantry stocked. Actually, now it's time to sit back and relax. But just then they come around the corner and ruin all the joy: pests. Slugs eat their way through the vegetable patch, voles love to nibble roots and moles ruin the beautiful lawn. Our motto has always been: control pests cleverly and effectively, but gently for humans, pets and beneficial insects! Products that have been tried and tested for more than 40 years, as well as newly developed products help to repel moles, voles, mosquitoes, snails, wasps, martens, spiders and other pests without the use of chemicals.

- poison- and chemical-free protection against snails in raised beds
- main element with outwardly folded edge
- telescopic and can be shortened individually
- suitable for common rectangular raised beds
- with pre-drilled holes for easy installation
- made from galvanized sheet steel

# Raised bed snail protection corner

No./Dim. Content EAN ⊕
02448 4 PCE 4 003117 024489 N

- poison- and chemical-free protection against snails in raised beds
- four corner connectors with outwardly folded edge
- ideal addition to the raised bed snail barrier (item no. 02447)
- with pre-drilled holes for easy installation
- made from galvanized sheet steel

# Spider & insect catcher EASY CATCH

- to catch spiders alive without contact
- telescopic handle with a slide to close the flan
- the animals can be released unhurt
- hygienic and without contact
- While stocks last.

1

- non-toxic dogs, cats and martens defence device with 3 operating modes
- ultrasound keeps the animals from your property
- the sounds are barely audible for the human ear but extremely jarring to the four-legged visitors
- infrared motion sensor activates the sound
- includes suspension device and ground spike

# Animal repeller GUARD SOLAR

No./Dim.	Info	L/ 111	<b>B</b>
05045 6,5x8,5x13cm	incl. battery pack	9 003117 050457	1

- non-toxic dog, cat and marten repeller
- motion sensor activates ultrasound & flashing light
- ultrasound intensity and range adjustable
- includes suspension device and ground spike
- effective range: up to 60 m<sup>2</sup>; radius of 8 m
- weatherproof housing
- 5 operating modes

## Animal repeller WATER GUARD SOLAR

No./Dim.	Info	EAN	8
05046 19x11,5x65cm	incl. battery pack	9 003117 050464	1

- environmentally friendly dogs, cats, martens, raccoons, birds and wild animal repeller with solar energy supply
- motion sensor activates strong water jet
- includes ground spike and water connector
- effective range up to 90m<sup>2</sup> and radius of 10m
- water pressure and range adjustable (2 6 bar)

# Marten repellent downpipe belt

No.	Content	EAN	8
03126	2 PCE	9 003117 031265	10

- defence belt for gutter downpipes prevents martens & similar animals from climbing up
- stainless steel spikes with plastic end caps to prevent injury
- simple, drill-free installation by connecting the individual elements together
- circumference adjustable using a tension spring, suitable for downpipes with a max. Ø 10 cm
- 2 parts per pack

# Marten control floor mat NO MORE BITE

No./Dim.	EAN	8
05373 1,9x1,5m	9 003117 053731	12

- no installation or modification to the vehicle needed
- durable HDPE material
- flexible and portable repellent against cableloving martens
- animals don't like running on grids
- the grid should be placed directly under the engine compartment for effective protection (mounting frame not included)
- animal-friendly alternative to electro-shock or ultrasound options

## Marten trap

- animal-friendly live trap for martens and smaller rodents
- made from galvanised metal
- easy-to-fill bait device in lateral position
- ready to use, fully assembled
- long-lasting and robust

# **BIRDS & PIGEONS**

- set of 2

# **Gutter cover**

- efficient and long-term assistance with clogged gutters
   flexible PE tape with grid structure, easy to cut to the desired length
- length 6 m
- comes with 12 mounting clips

# SEED SOWING & PROPAGATION

Whether courgettes, lettuce, tomatoes or cucumbers - vegetables simply taste better from your own garden. And isn't it wonderful to see the plants grow and flourish until they are ready to harvest?

The key to such a high yielding harvest is proper cultivation! With the seedling tablets and seed trays, the magic moment when the first leaves sprout from the soil is not too long in coming. If then the seedlings spend a while in the indoor greenhouse in an ideal microclimate, the foundation for vigorously growing plants is laid. The products in our range are made of different materials, in different designs and with or without a hood. This allows you to garden according to your individual preferences and circumstances! Now it's just a matter of waiting and watering to enjoy fresh vegetables soon.

# PROPAGATORS & GREENHOUSES

#### Root trainer RootXtender

No./Dim./Col.	EAN	8
05849 38x24x16cm grey	9 003117 058491	3

- 3-piece propagator for controlled cultivation of cuttings: Growing tray with space for up to 40 seedlings, lid with nodules for transplanting, base tub serves as water reservoir
- the shape of the seed tray promotes deep (conical) root formation creating less stress for plants when transplanting and faster growth in the new environment
- use with (nutrient-poor) seed compost
- production of own pellets possible for common hydroponic systems

## **Propagation tray Greenline**

- sustainable sowing tray for the successful propagation of seedlings
- made from pressed materials such as rice, bamboo and coffee bean husks
- suitable for indoor use, patios, balconies and winter gardens
- use with seedling pellets, nursery pots or cultivation soil
- matching cover (item no. 05509) is available separately

# Seed tray with separate lid 38x24x6cm

- plastic heating mat in 2 sizes
- constant heat emission up to max. 20°C above the ambient temperature
- can be used in plant cultivation ensures faster germination and growth
- can be used for overwintering protects the roots of cold-sensitive plants
- suitable for indoor use, with power cable of approx. 1.4 m, CE compliant

# SHEETING & FLEECES

Overgrown weeds and plants that just don't want to grow - these and other challenges quickly spoil the joy of having your own garden. But sheeting and fleeces turn out to be true superheroes!

The microclimate created by growing films and tunnels not only ensures faster plant growth, but can also increase yields. Weed mats put an end to uncontrolled weed growth and stabilise the soil, while a sandbox fleece extends the usability of play sand. Our product range also includes many natural art.s made from renewable raw materials - in other words, everything the heart of sustainable gardeners desires.

- provides optimal support for prolific growth
- perforated for optimal heat exchange and perfect ventilation
- protects the fruit against pests and cold
- can be cut to size, sufficient for 5 7 tomato vines

No./Dim.	Ø	EAN	8
06762 0,75x10m 37 μm	50cm	9 003117 067622	8

- enhanced plant growth through the greenhouse effect
- perforated for optimal heat exchange and perfect ventilation
- · protects against frost
- UV-stabilized

#### Elastic tomato hood

No./Dim. 06765 0,65x1,25m 50 μm 40cm

- optimal for high-growing plants
- stretches by up to 25%
- adapts to the size of the plant
- protects against pests and cold
- generates a balanced microclimate
- UV-stabilized
- package contents: 5 pieces

# Tomato polytunnel set

No./Dim. 06818 27x200x210cm 60 μm

- optimum support for successful tomato
- quick harvest
- set consists of 3 arcs, 6 extending rods, 1 foil, 15 clips, 6 connectors

# Tunnel arch rod U-shape

No./Dim./Ø	Content	EAN 🕾	•
07100 1,8m 1,1cm	1 PCE	9 003117 071001	

- ideal basis for safety tunnels when used in conjunction with nonwoven fabrics, sheets or nets (sold separately)
- made of PVC, durable and reusable
- versatile
- easy to use

# Fastening & fixing clips

No.	Content	EAN	8
07144	10 PCE	9 003117 071/45	10

- for attaching sheets to tunnel arches
- practical: due to the double clip design, foils and fleeces can be rolled up and fixed at any height
- pack of 10
- for rods and arches with a diameter of approx. 13 mm

#### Tomato house ALUSTAR

No./Dim. EAN ⊕
38111
80x150x170cm
100 μm 9 003117 381117

- the greenhouse effect provides optimal growth
- stable aluminium construction with strong greenhouse foil
- very durable greenhouse foil with 100  $\mu m$
- an early harvest is possible
- UV-stabilized
- can be used for many years
- includes clips for fastening the foil

# Replacement greenhouse foil for tomato house ALUSTAR

80x150x180cm

- replacement part for 38111 tomato house ALUSTAR
- creates a greenhouse climate
- for rapid plant growth
- UV-stabilized

#### Replacement clip for tomato house ALUSTAR

- replacement part for 38111 tomato house ALUSTAR
- easy to use
- made from plastic
- 12 pieces/pack

- high tomato yield due to greenhouse effect
- painted metal rod
- cover from lattice sheet
- reliable protection against blight
- simple installation thanks to plug-in system
- front side closable with zip closing
- including closable side windows with fly screens
- dimensions (HxWxD): 200/170x195x60 cm

# Balcony greenhouse

No./Dim.	EAN	8
07057 49x68x128cm 80 µm	9 003117 070578	1

- ideal for plant cultivation
- creates a growth stimulating greenhouse climate
- protects young plants against harmful weather conditions
- strong steel cylinder construction with three shelves
- UV-stabilized foil
- closable front

# WEED PREVENTION

# Mulch plastic film

No./Dim.	EAN	8
06752 10x1,2m 20 μm	9 003117 067523	12

- an effective aid in the fight against weeds
- avoids the use of chemicals
- the black sheeting keeps the earth warm and moist
- encourages seedlings to grow more quickly
- UV-stabilized
- perforated

# Weed control and strawberry sheeting

No./Dim.	EAN	1
06753 10x1,5m 37 μm	9 003117 067530	8

- to combat weeds naturally as well as to encourage the growth of strawberries etc.
- perforated for optimal moisture exchange
- the black colour keeps the earth warm and promotes quicker growth
- UV-stabilized

#### Mulch fleece

5x1,5m
30 um
9,003117,075696

- creates a growth-promoting microclimate and supports rapid ripening
- perforated for optimal air exchange
- protects against pests and cooler temperatures
- partially made from renewable raw materials, industrially compostable
- can simply be laid on the flowerbed or stretched over a tunnel arch

#### Tomato film tube Greenline

No./Dim.	Ø	EAN	8
07570 0,75x5m 30 um	50cm	9 003117 075702	12

- better plant growth due to optimal climate for growth
- protects against cool temperatures and rain
- perforated film for heat exchange and ventilation
- can be rolled up and unrolled as required
- partially made from renewable raw materials, compostable

#### Jute fleece mulch mat Greenline

No./Dim.	Pack.	EAN	8
07571 4x0,75m 300 g/m²	roll	9 003117 075719	1

- sustainable mulch mat made of jute fibre, tightly needled for high strength
- suppresses weed growth in the flowerbed by depriving it of light
- keeps the soil warm and moist, is waterpermeable and breathable
- easy to use in the garden, under bushes and in flowerbeds
- rots without leaving any residue

#### Jute fleece raised bed mat Greenline

No./Dim.	Pack.	EAN	8
07573 2x1m 300 g/m²	roll	9.003117.075733	1

- sustainable mulch mat made of jute fibre, tightly needled for high strength
- ideal size for use in raised beds
- suppresses weed growth in raised beds by depriving them of light
- keeps the soil warm and moist, is waterpermeable and breathable
- decomposes without leaving residues

#### Jute separating fleece for pots Greenline

No./Dim.	Pack.	EAN	8
07572 1x1m 300 g/m²	box	9 003117 075726	4

- sustainable fleece made of 100% jute for flower and plant pots
- separates soil and drainage material from each other: prevents washing out of the plant soil and clogging of the water drainage holes
- can be cut to size, also suitable for larger potted plants
- rots without leaving residues

#### Jute felt water reservoir mat Greenline

# STAKES & ACCESSORIES

#### Metal sheet/nonwoven bracket

- for fastening various nonwoven materials and gardening sheets
- metal brackets of a ribbed structural steel
- approx. 20 x 25 cm, wire thickness 4 mm, 100 pcs.
- the ribbing ensures the metal bracket is fastened even more securely to the ground

#### Metal stakes

25x20cm 4mm

- used for securing fleeces and plastic sheeting in the soil
- made of galvanized metal
- weather-proof

# Large metal stakes

- sheeting in the soil made of galvanized metal

used for securing fleeces and plastic

- weather-proof
- reusable

No./Dim./Ø Content 06402 10 PCE 25x15cm 4mm

# Plastic sheeting and fleece fasteners

No./Dim. Content 06273 10 PCE 11,5cm

- used for securing plastic sheeting and  $\label{eq:fleeces} \mbox{fleeces in the soil}$
- made of sturdy plastic
- weather-proof
- reusable

## Multipurpose pegs

8 No./Dim. Content 10 PCE 06240 25cm

- ideal for anchoring fleeces, plastic sheeting and netting in the soil
- made of weather-proof plastic
- can be used universally
- reusable

# Plant stake netting holder

- netting attachment for all Windhager steel plant stakes with 11 and 16 mm diameter
- used with plant stakes and netting to protect fruit bushes etc.
- less plant/harvest damage as the netting does not touch the plant directly
- 5 netting holders incl. adapters per package

# WINTER PROTECTION

With the autumn days getting shorter and cooler, nature also comes to rest. Before winter gains a firm grip on the country, and on sensitive plants in particular, those which must stay outside need support during the winter. Fleece covers and mats ensure that the plants are well wrapped up, so that they can get through the cold season even in frosty temperatures. Winter protection solutions can be found here also for several large plants, shrubs and bulky treetops. Natural materials such as coconut fibre or sheep's wool offer a sustainable protection from icy wind and snow. Binding cords and ribbons are also wonderfully suitable for natural decorative arrangements - for example at the festive Christmas table.

- splash-proof according to IP44
- dimensions: heating hose 6m, supply line 2m

# ANIMALS IN THE GARDEN

Is there anything better than being woken up in the morning by the cheerful chirping of birds? Due to an increasingly dense development and fewer green spaces, unfortunately many animals find it difficult to find a place to retreat and sufficient food. Anyone who offers refuge and a feeding place to the colourful variety of domestic birds, squirrels, hedgehogs, wild bees and ladybirds in the garden or on the balcony is not only doing good, but can also enjoy a great sight.

No. / Dim.	EAN	8
06995 8x12,5x30cm	9"003117"069954	1

# GARDENING AIDS

The gardening aid range offers a practical solution for all gardening tasks: accessories for your raised bed, tying materials to support growing plants, bird nets to protect the harvest. Automatic water dispensers take over the watering during the holiday. Stick-in labels are decorative and informative. In autumn, harvest nets facilitate the collection of nuts and fruit, which are then stored in sustainable jute sacks. Our products are with you all year round.

- with rotatable fastening ring

#### Multipurpose pegs

- ideal for anchoring fleeces, plastic sheeting and netting in the soil
- made of weather-proof plastic can be used universally
- reusable

# **GARDEN DESIGN**

Our extensive range of garden design products ensures perfectly manicured outdoor areas. Flexible lawn edgings are particularly practical; flower bed borders made of natural materials such as bamboo or willow are a decorative way to create boundaries and borders. And for areas with heavy traffic (such as pool areas), a natural-looking artificial turf is ideal. Shapely trellises and planting sticks with interchangeable attachments are real eye-catchers and - in combination with the reflective balls - provide diverse possibilities for decorating the garden. This makes garden design fun!

# LAWN EDGE

#### **EASYCUT** mowing edge

No./Dim./Col.	EAN	8
07703 80x4x11cm galvanised	9 003117 077034	10

- mowing edge to separate the lawn from flower beds and paths
- can be driven over with a standard or automatic lawnmower - no additional manual lawn trimming required
- made from galvanized sheet steel with raised edge
- easy to lay by pressing into the ground (or inserting), can be curved inwards and outwards
- can be extended as required

# EASYMOW mowing edge

- galvanised sheet steel lawn boundary and mowing edge
- can be driven over with a standard or automatic lawnmower
- no additional manual lawn trimming required
- also ideal around raised beds for easier mowing
- smoothly adjustable angles from 180° 70° possible
- easy to lay by pressing into the ground

#### **CLASSIC** corrugated lawn edge

- a clear boundary between the flower bed and the lawn
- prevents the unwanted spreading of grass onto flower beds and paths
- stable and robust, made from corrugated galvanised steel
- can be shaped individually
- easy to assemble, can be extended as required

# Lawn and landscape edging Aluminium

No./Dim./Col.	EAN	8
07460 1,18mx12cm aluminium	9 003117 074606	10

- flexible lawn edging to separate lawns from paths and flower beds
- light, shapeable aluminium profiles (corners possible)
- high-quality, sturdy and corrosion-free
- 1 connection plate + 2 screws included

## Lawn edge strip 5mx15cm, galvanised

No./Dim./Col.	EAN	8
07458 5mx15cm galvanised	9 003117 074583	1

- flexible lawn edge strip to partition lawn areas
- galvanized metal provides a high flexibility and long service life
- can be shaped freely for up to 5 m without connections
- pre-cutting the soil with a spade or the like makes it easier to insert into the ground
- accessories (connectors, edges, punch-in aids) available separately

#### Lawn edge ring/tree ring

No./Dim./Col.	EAN	8
07459 12cm	9 003117 074590	5

- flexible lawn edge rings to surround trees
- pre-shaped semi-circles, stable hold thanks to screw connection
- made from 0.6-mm sheet steel
- various sizes can be shaped: 1 ring with 72cm/64cm/55cm or 2 rings with 36cm/ 27cm

#### Lawn edging connector

- connector for the Windhager lawn edging
- connects two straight lawn edge strips by means of a smart plug-type design
- edge protection thanks to rounded upper edge
- galvanized metal for long service life and stability

## Edge connectors for lawn edge strip

No./Dim./Col.	EAN	8
07462 5x5x15cm galvanised	9 003117 074620	10

- edge connectors for Windhager's lawn edge strip
- appealing connection of lawn edge strips, sturdy connection
- smart plug connection thanks to rounded upper edges
- edges easy to bend
- galvanized metal

#### Ground anchor for lawn edge strip 30 cm

No./Dim./Col.	EAN	8
07464 3x30cm galvanised	9 003117 074644	20

No./Dim./Col. EAN E 2 2 3x30cm anthracite 9 003117 080133

- ground anchor for fixing the Windhager lawn and decoration edging (07457, 07619, 06099) and the lawn edge strip (07458)
- for stabilisation in low soil depths or loose soil
- one ground anchor per metre is sufficient
- facilitates exact alignment of the lawn edging during installation
- high-quality aluminium-zinc alloy (silver) or powder-coated (anthracite)

## Punch-in aid for lawn edge strip 30 cm

No./Dim./Col. EAN 10
07463
30cm
galvanised 9 003117 074637

- installation aid for Windhager's lawn edge strip
- for gently tapping in the lawn edge strip into the garden soil
- is placed on the lawn edge strip and tapped into the soil using a rubber mallet
- galvanised sheet steel
- reusable

# Plastic lawn and landscape edging

No./Dim./Col.	EAN	8
06099 8mx12,5cm black	9 003117 060999	1

- flexible plastic lawn edging
- keeps for a min. of 30 years on soil
- unbreakable
- linear grooves for higher stability

#### **Green Border**

No./Dim./Col.	EAN	8
06817 1mx12,5cm green	9 003117 068179	12

- durable and stable plastic
- · can be expanded
- flexible application
- fast separation between lawns, pathways and flowerbeds
- easy installation by hammering

GARDEN DESIGN

# TARPAULINS & COVERS

We cherish plants and gardens - but what about all the things that help us really enjoy the summer? The fireplace, sandpit and furniture are often used in summer and should be well protected in bad weather and after the season! Tarpaulins & covers in a wide range of sizes and designs are perfect for this. They can also be used for a wide variety of applications: from picnics to protecting the boot of a car to covering piles of firewood.

- versatile application possibilities

# **ACCESSORIES**

## MINI sandbags

- small, robust bags to be filled with sand or pebbles
- ideal for weighting down tarpaulins, garden furniture covers, sunshades on the beach, small pop-up tents, etc.
- inner bag with zip fastener, outer bag made from Oxford fabric with Velcro fastener and snap hooks
- easy to fill (full weight: approx. 2 kg per bag); can be compactly stored without filling
- practical 4-piece set

## Tarpaulin expander with hooks

No./Dim.	Content	EAN	8
07700 15cm	6 PCE	9 003117 077003	10

- practical rubber expander with hooks for attaching tarpaulins and tensioning nets, banners, etc.
- durable expander rope with 6 mm diameter, tensioning hook at the end with rubber cap load capacity of up to 20 kg per expander
- ready to use immediately, reusable as many times as required

## Ground nail, V-shaped

- V-shaped ground nails for secure fastening of nonwoven materials, sheets and tarpaulins as well as awnings
- ideal replacement part for securing the Yukon winter protection tent (item no. 07490) to the ground
- made of galvanised metal
- · weatherproof and reusable

## Spiral peg

- ideal for attaching tarpaulins, sun sails, tents
- made from galvanised steel, weatherproof and reusable
- simply screw it into the ground

- ideal as secure anchoring for tarpaulins, awnings, tents, trampolines
- can be used for leashing dogs on the go
- made of galvanised metal, weatherresistant and reusable
- with rotatable fastening ring

## Peg extractor

- peg extractor facilitates removing firmly anchored pegs out of the ground
- made of galvanised steel rod
- with comfortable handle

## Fastening cord adjustable

- length-adjustable fastening cord with 2 tensioners
- braided PP fibre, particularly resistant
- durable and weatherproof
- for tarpaulins, tents, sun sails etc.
- ideal replacement part for securing the Yukon winter protection tent (item no. 07490) to the ground
- individually adjustable with clamps

- a useful accessory for neatly securing all kinds of fabric
- made of plastic
- they reduce tearing
- robust and durable

## Protection tarpaulin fastening set

- for tightening and holding down tarpaulins
- easy to use: hard-wearing springs for the easy tightening of tarpaulins 12-piece galvanised set (6 hard-wearing
- springs and 6 claws)
- for several years' use

# PRIVACY SCREENS

A beautiful garden or balcony is the perfect place to enjoy warm days. But curious glances from neighbours or walkers often disturb the relaxed atmosphere. That's over now! Privacy mats for fences and balcony screens provide privacy and also protect against the wind. Materials such as reed, bamboo or willow also convey a feeling of holiday. Natural-looking privacy hedges bring more greenery into the garden or onto the terrace, while easy-to-clean plastic mats are particularly durable and stable. The privacy screen range simply offers the right solution for every taste and every outdoor space.

# **SUN PROTECTION**

Windhager awnings expand the space outdoors! Stylish sun protection for the garden, balcony and terrace that is flexible and can be individually designed: this is the best way to describe our sun sails! Whether as a simple sail or with rope-pull technology, they offer an ideal protection from too much sun, too much UV radiations and too much heat. In their shade, you can enjoy the summer outside in a relaxed way. Visually, awnings create a wonderful holiday atmosphere - you can almost hear the sound of the sea.
